

SAFETY DATA SHEET

Section 1. Identification

CHS Inc. P.O. Box 64089 Mail station 525		Transportation Emergency (CHEMTREC) Technical Information	:	1-800-424-9300 1-651-355-8443
St. Paul, MN 55164	-0089	SDS Information	:	1-651-355-8445
Product name	: Drip Oil	SDS no.	:	1002- 024766.HL
Common name	: Drip Oil	Revision date	:	06/10/2015
Chemical name	: Lubricating oil.	Chemical formula	:	Mixture
Chemical family	: Hydrocarbon.			

Relevant identified uses of the substance or mixture and uses advised against

Lubricant.

Section 2. Hazards identification

OSHA/HCS status	:	While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910. 1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.					
Classification of the substance or mixture	:	Not classified.					
GHS label elements							
Signal word	:	No signal word	l.				
Hazard statements	:	No known sign	ificant effects	or critica	l hazards.		
Precautionary statements							
General	:	Read label bef label at hand.	ore use. Kee	p out of re	each of children. If me	dical a	advice is needed, have product container or
Prevention	:	Not applicable					
Response	:	Not applicable					
Storage	:	Not applicable					
Disposal	:	Not applicable					
Hazards not otherwise classified (HNOC)	:	None known.					
Hazardous Material Information Sy	ster	m (U.S.A.)	Health :	0	Flammability :	1	Physical hazards: 0
National Fire Protection Association	on (l	J.S.A.)	Health :	0	Flammability :	1	Instability: 0
	;	Section 3. C	ompositio	n/infor	mation on ingred	lients	6

Substance/mixture	: Mixture				
Chemical name	: Lubricating oil.				
Other means of identification	: Drip Oil				
Any concentration shown as a range is to protect confidentiality or is due to batch variation.					

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

	measures
Eye contact	: If material comes in contact with the eyes, immediately wash the eyes with large amounts of water for 15
Inhalation	 minutes, occasionally lifting the lower and upper lids. Get medical attention. If person breathes in large amounts of material, move the exposed person to fresh air at once. If breathing has a person warm and at reat. Cat medical attention as according to a person and at reat.
Skin contact	 stopped, perform artificial respiration. Keep the person warm and at rest. Get medical attention as soon as possible. If the material comes in contact with the skin, wash the contaminated skin with soap and water promptly. If the material penetrates through clothing, remove the clothing and wash the skin with soap and water promptly. If irritation persists after washing, get medical attention immediately.
Ingestion	: If material has been swallowed, do not induce vomiting. Get medical attention immediately.
Most important symptoms/effects	
Potential acute health effects	
Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs/symptoms	
Eye contact	: Adverse symptoms may include the following: pain or irritation, watering, redness.
Inhalation	: Adverse symptoms may include the following: respiratory tract irritation, coughing.
Skin contact	: Adverse symptoms may include the following: irritation, redness.
Ingestion	: No known significant effects or critical hazards.
Indication of immediate medical	l attention and special treatment needed, if necessary
Notes to physician	 Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingeste or inhaled.
Specific treatments	: No specific treatment.
Specific treatments Protection of first-aiders	No specific treatment.No action shall be taken involving any personal risk or without suitable training.
-	: No action shall be taken involving any personal risk or without suitable training.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.
Protection of first-aiders See toxicological information (S	: No action shall be taken involving any personal risk or without suitable training. Section 11)

Conditions for safe storage, including any incompatibilities

: Do not store above the following temperature: 113°C (235.4°F). Odorous and toxic fumes may form from the decomposition of this product if stored at excessive temperatures for extended periods of time. Store in accordance with local regulations. Store in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10). Use appropriate containment to avoid environmental contamination.

Section 8. Exposure controls/personal protection

Control parameters	
Occupational exposure limits	
None.	
Appropriate engineering controls	: Use only with adequate ventilation.
Environmental exposure controls	: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.
Individual protection measures	
Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	: Recommended: Splash goggles and a face shield, where splash hazard exists.
Skin protection	
Hand protection	: 4 - 8 hours (breakthrough time): Nitrile gloves.
Body protection	: Recommended: Long sleeved coveralls.
Other skin protection	: Recommended: Impervious boots.
Respiratory protection	: If ventilation is inadequate, use a NIOSH-certified respirator with an organic vapor cartridge and P95 particulate filter.

Section 9. Physical and chemical properties

Appearance		Relative density	: 0.86 to 0.87
Physical state	: Liquid.	Evaporation rate	: <1 (Butyl acetate = 1)
Color	: Amber.	Solubility	: Insoluble in the following materials: cold water and hot water.
Odor	: Mild.	Solubility in water	: Insoluble
Odor threshold	: Not available.	Partition coefficient: n-	: Not available.
рН	: Not available.	octanol/water	
Melting point	: Not available.	Auto-ignition temperature	: >260°C (>500°F)
Boiling point	: Not available.	Decomposition temperature	: Not available.
Flash point	: Closed cup: >190°C (>374°F)	SADT	: Not available.
Flammability	: Not available.	Viscosity	: Not available.
Lower and upper	: Not available.	Vapor pressure	: <0.13 kPa (<1 mm Hg) (68°F)
explosive (flammable) limits		Vapor density	: Not available.

Section 10. Stability and reactivity

Reactivity Chemical stability Possibility of hazardous reactions	::	No specific test data related to reactivity available for this product or its ingredients. The product is stable. Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid Incompatible materials Hazardous decomposition products		No specific data. Reactive or incompatible with the following materials: oxidizing materials and acids. Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Information on toxicological effe	<u>cts</u>					
Acute toxicity						
There is no data available.						
Irritation/Corrosion						
Skin	:	There is no data available.				
Eyes	:	There is no data available.				
Respiratory	:	There is no data available.				
Sensitization						
Skin	:	There is no data available.				
Respiratory	:	There is no data available.				
<u>Mutagenicity</u>						
There is no data available.						
Carcinogenicity						
There is no data available.						
Reproductive toxicity						
There is no data available.						
Teratogenicity						
There is no data available.						
Specific target organ toxicity (s	ingle e	<u>xposure)</u>				
There is no data available.						
<u>Specific target organ toxicity (r</u>	epeate	<u>d exposure)</u>				
There is no data available.						
Aspiration hazard						
There is no data available.						
Information on the likely routes exposure	of :	Dermal contact. Eye contact. Inhalation. Ingestion.				
		Section 12. Ecological information				
<u>Foxicity</u>						
There is no data available.						
Persistence and degradability						
There is no data available.						
Bioaccumulative potential						
There is no data available.						
Mobility in soil						
Soil/water partition coefficient (Ko	oc)	: There is no data available.				

Section 13. Disposal considerations

: No known significant effects or critical hazards.

Disposal methods

ł

Other adverse effects

: Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Section 14. Transport information
