

# **SAFETY DATA SHEET**

### Section 1. Identification

CHS Inc. P.O. Box 64089 Mail station 525 St. Paul, MN 55164	-0089	Transportation Emergency (CHEMTREC) Technical Information SDS Information	:	1-800-424-9300 1-651-355-8443 1-651-355-8445
Product name	: Commercial Full Synthetic ATF	SDS no.	:	1435-754501.HL
Common name	: Synthetic Automatic Transmission Fluid	Revision date	:	05/17/2016
Chemical name	: Lubricating oil.	Chemical formula	:	Mixture
Chemical family	: Hydrocarbon.			

#### Relevant identified uses of the substance or mixture and uses advised against

Not available.

OSHA/HCS status	<u> </u>	This material is considered becardous by the OSHA Hazard Communication Standard (20 CED 4010 4200)		
		This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).		
Classification of the substance or mixture	:	ASPIRATION HAZARD - Category 1		
GHS label elements				
Hazard pictograms	:			
Signal word	:	Danger		
Hazard statements	:	May be fatal if swallowed and enters airways.		
Precautionary statements				
General		Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.		
Prevention	:	Not applicable.		
Response	:	IF SWALLOWED: Immediately call a POISON CENTER or physician. Do NOT induce vomiting.		
Storage	:	Store locked up.		
Disposal	:	Dispose of contents and container in accordance with all local, regional, national and international regulations.		
Hazards not otherwise classified (HNOC)	:	None known.		
Hazardous Material Information Sy	sten	n (U.S.A.) Health : 1 * Flammability : 1 Physical hazards : 0		
National Fire Protection Association	n (U	I.S.A.) Health : 1 Flammability : 1 Instability : 0		

### Section 2. Hazards identification

Substance/mixture	:	Mixture		
Chemical name	:	Lubricating oil.		
Other means of identification	:	Synthetic Automatic Transmission Fluid		
Ingredient name			%	CAS number
1-Decene, homopolymer, hydrogenated Diphenylamine			10 - 30 0.1 - 1	68037-01-4 122-39-4

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

#### Section 4. First aid measures

Description of necessary first aid	1 measures
Eye contact	: If material comes in contact with the eyes, immediately wash the eyes with large amounts of water for 15
Inholotion	minutes, occasionally lifting the lower and upper lids. Get medical attention.
Inhalation	: If person breathes in large amounts of material, move the exposed person to fresh air at once. If breathing has stopped, perform artificial respiration. Keep the person warm and at rest. Get medical attention as soon as
	possible.
Skin contact	: If the material comes in contact with the skin, wash the contaminated skin with soap and water promptly. If the
	material penetrates through clothing, remove the clothing and wash the skin with soap and water promptly. If irritation persists after washing, get medical attention immediately.
Ingestion	: If material has been swallowed, do not induce vomiting. Get medical attention immediately.
Most important symptoms/effect	s, acute and delayed
Potential acute health effects	
Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: May be fatal if swallowed and enters airways.
Over-exposure signs/symptom	<u>S</u>
Eye contact	: Adverse symptoms may include the following: pain or irritation, watering, redness.
Inhalation	: Adverse symptoms may include the following: respiratory tract irritation, coughing.
Skin contact	: Adverse symptoms may include the following: irritation, redness.
Ingestion	: No known significant effects or critical hazards.
Indication of immediate medica	al attention and special treatment needed, if necessary
Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.
See toxicological information (	Section 11)
	Section 5. Fire-fighting measures
Extinguishing media	
Suitable extinguishing media	<ul> <li>Use water spray to cool fire exposed surfaces and to protect personnel. Foam, dry chemical or water spray (fog) to extinguish fire.</li> </ul>

	water spray (fog) to extinguish fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: Toxic fumes gases or vapors may evolve on burning.
Hazardous thermal decomposition products	: No specific data.
Special protective actions for fire-fighters	: When fighting fires wear full turnout gear and self contained breathing apparatus. Water may cause splattering. Material floats on water.
Special protective equipment for fire-fighters	: Not applicable.

### Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

For non-emergency personnel : Keep unnecessary and unprotected personnel from entering. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

### Methods and materials for containment and cleaning up

Spill

: Contain with dikes or absorbent to prevent migration to sewers/streams. Take up small spill with dry chemical absorbent; large spills may require pump or vacuum prior to absorbent. May require excavation of severely contaminated soil.

### Section 7. Handling and storage

Precautions for safe handling	
Frecautions for sale nationing	
Protective measures	Put on appropriate personal protective equipment (see Section 8). Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate.
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking.
Conditions for safe storage, including any incompatibilities	: Do not store above the following temperature: 80°C (175°F). Odorous and toxic fumes may form from the decomposition of this product if stored at excessive temperatures for extended periods of time. Store in accordance with local regulations. Do not store at temperatures exceeding 113°F (45°C). Store in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10). Use appropriate containment to avoid environmental contamination.

### Section 8. Exposure controls/personal protection

### **Control parameters**

#### Occupational exposure limits

Ingredient name			Exposure limits	
Diphenylamine			ACGIH TLV (United States, 4/2014). TWA: 10 mg/m <sup>3</sup> 8 hours. NIOSH REL (United States, 10/2013). TWA: 10 mg/m <sup>3</sup> 10 hours. OSHA PEL 1989 (United States, 3/1989). TWA: 10 ppm 8 hours.	
Appropriate engineering controls	: Use only with adequate ventilation.			
•		Emissions from ventilation or work requirements of environmental prof	c process equipment should be checked to ensure they comply with the otection legislation.	
ndividual protection measures				
Hygiene measures	:	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and usir the lavatory and at the end of the working period. Ensure that eyewash stations and safety showers are close to the workstation location.		
Eye/face protection	:	Recommended: Splash goggles and a face shield, where splash hazard exists.		
Skin protection				
Hand protection	:	: 4 - 8 hours (breakthrough time): Nitrile gloves.		
Body protection	:	Recommended: Long sleeved coveralls.		
Other skin protection	:	Recommended: Impervious boots.		
Respiratory protection	:	If ventilation is inadequate, use a N filter.	IIOSH-certified respirator with an organic vapor cartridge and P95 particulate	

# Section 9. Physical and chemical properties

Appearance		Relative density	: 0.8443 to 0.8649
Physical state	: Liquid.	Evaporation rate	: <1 (Ether. = 1)
Color	: Red.	Solubility	: Insoluble in the following materials: cold water and hot water.
Odor	: Mild petroleum.	Solubility in water	: Insoluble
Odor threshold	: Not available.	Partition coefficient: n-	: Not available.
рН	: Not available.	octanol/water	
Melting point	: Not available.	Auto-ignition temperature	: >260°C (>500°F)
Boiling point	: Not available.	Decomposition temperature	: Not available.
Flash point	: Closed cup: >177°C (>350.6°F)	SADT	: Not available.
Flammability	: Not available.	Viscosity	: Not available.
Lower and upper	: Not available.	Vapor pressure	: <0.13 kPa (<1 mm Hg) (68°F)
explosive (flammable) limits		Vapor density	: Not available.

# Section 10. Stability and reactivity

Reactivity Chemical stability Possibility of hazardous reactions	::	No specific test data related to reactivity available for this product or its ingredients. The product is stable. Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid Incompatible materials Hazardous decomposition products		No specific data. Reactive or incompatible with the following materials: oxidizing materials. Under normal conditions of storage and use, hazardous decomposition products should not be produced.

# Section 11. Toxicological information

#### Information on toxicological effects

### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure			
Diphenylamine	LD50 Dermal	Rabbit	>5000 mg/kg	-			
	LD50 Oral	Rat	1120 mg/kg	-			
rritation/Corrosion							
Skin	: There is no data available.	: There is no data available.					
Eyes	: There is no data available.	: There is no data available.					
Respiratory	: There is no data available.						
Sensitization							
Skin	: There is no data available.						
Respiratory	: There is no data available.						
Mutagenicity							
There is no data available.							
Carcinogenicity							
There is no data available.							
Reproductive toxicity							
There is no data available.							
Teratogenicity							
There is no data available.							
Specific target organ toxicity (si	ingle exposure)						
There is no data available.							
Specific target organ toxicity (re	epeated exposure)						
Name		Category	Route of exposure	Target organs			
Diphenylamine	Category 2	Not determined	Not determined				

#### Aspiration hazard

Name	Result		
1-Decene, homopolymer, hydrogenated	ASPIRATION HAZARD - Category 1		

Information on the likely routes of : Dermal contact. Eye contact. Inhalation. Ingestion. exposure

# Section 12. Ecological information

To	ric	itv
10		<u>, ILY</u>

Product/ingredient name	Result	Species	Exposure
Diphenylamine	Acute EC50 2.17 mg/L Fresh water	Algae - Pseudokirchneriella subcapitata - Exponential growth phase	72 hours
	Acute EC50 1.2 mg/L Fresh water Acute LC50 2.2 ppm Fresh water Chronic NOEC 0.37 mg/L Fresh water	Daphnia - Daphnia magna - New born Fish - Oncorhynchus mykiss Algae - Pseudokirchneriella subcapitata - Exponential growth phase	48 hours 96 hours 72 hours

### Persistence and degradability

There is no data available.

#### **Bioaccumulative potential**

Product/ingredient name	LogPow			BCF			Potential
